CAREER OBJECTIVE

Detail-oriented **Python Full Stack Developer** with hands-on experience in building scalable web applications using **Django, React.js, and MySQL**. Proven track record through internships at **ProjEdge** and **Kapil IT Skill Hub**, focusing on RESTful APIs, MVT architecture, and responsive UI design. Strong problem-solver with a B.Tech in Computer Science and a passion for developing efficient, user-centric software solutions.

TECHNICAL SKILLS

Backend: Python, Django, Django ORM, REST API Basics, MVT Architecture

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap

Databases: MySQL (CRUD, Joins)

Programming: Python, JavaScript

Tools: Git, GitHub, VS Code, PyCharm, MySQL Workbench

EDUCATION

Chaibasa Engineering College, Chaibasa, Jharkhand 2020 – 2024 | 7.92 CGPA
Bachelor of Technology (B.Tech) in Computer Science & Engineering

Koncept Public School, Chakradharpur, Jharkhand 2018 – 2020 | 67.8%
Intermediate in Science (12th)

St. Xavier's English School, Chakradharpur, Jharkhand 2017 – 2018 | 68.4%
Matriculation (10th)

TRAINING & INTERNSHIP EXPERIENCE

Python Full Stack Intern | ProjEdge (Remote) March 2026 – Present (Expected May 2026)

- Developing a comprehensive **Student Management System** using **Django** for backend logic and **MySQL** for robust data management.
- Designing and implementing **CRUD** functionalities to manage student profiles, course registrations, and academic records efficiently.
- Building a responsive and user-friendly interface using **HTML, CSS, and JavaScript** to ensure cross-device compatibility.
- Collaborating in a project-based environment to translate functional requirements into technical solutions while following clean coding practices.

Python Full Stack Developer – Training & Internship

Kapil IT Skill Hub, Hyderabad | March 2026

- Hands-on training in **full stack development** using **Django, MySQL, JavaScript, and React.js**.
- Developed **end-to-end web applications** following **MVT architecture**.
- Implemented **CRUD functionality**, authentication, and backend validations.
- Built and integrated **REST APIs** to facilitate smooth communication between the React frontend and Django backend.
- Collaborated on version control using **Git/GitHub** to maintain code quality and deployment workflows.

PROJECT

Smart Zebra Crossing with Smart Breaker

IoT | Arduino | Sensors | Final Year Project

- Designed an **IoT-based automated traffic control system** for pedestrian safety.
- Implemented real-time sensor-based logic for system automation.

Web Applications (Backend + CRUD Focus)

Python, Django, MySQL

- Built **database-driven web applications** with complete **CRUD functionality**.
- Implemented backend logic for **data validation, request handling, and database operations**.
- Designed structured Django models and views for efficient backend processing

Portfolio & Web Applications

HTML, CSS, JavaScript, Bootstrap

- Built interactive applications including **To-Do App (CRUD)**, Temperature Converter, and **Amazon/Netflix UI clones**.
- Focused on **responsive design**, reusable components, and user interaction.

Photography Portfolio Website

React.js, JavaScript, Bootstrap

- Created a responsive portfolio website with modular **React components**.
- Improved performance through **optimized asset loading**.

CERTIFICATIONS & TRAINING

- **Python Full Stack Developer** Training + Internship – **Kapil IT Skill Hub**, Hyderabad
- **AI-ML Industry Application** Training – **Ultra Max Technology**
- **Full-Stack Web Development** Internship – **Internshala**
- **Web Development** Internship – **Bharat Intern & MSME DOST**
- **UI-UX Design** Certification – **Coursera**

KEY STRENGTHS

- Strong problem-solving and logical thinking
- Quick learner of new backend technologies
- Team Collaboration
- Quick Learner
